

BOATLANES LLC

Warnings and Disclaimer Page

Our website: www.boatlanes.com

WARNING! CAREFUL NAVIGATION REQUIRES MORE THAN ONE METHOD TO OBTAIN POSITION INFORMATION.

CAUTION: When introducing navigation information to a waypoint (position), the GPS unit will provide the most direct route to that waypoint without regard to obstructions. As a result, it is imperative that the navigator utilizing the GPS method also take full advantage of other methods available, including *visually* checking the safety of the route chosen.

WARNING! It is the sole responsibility of the vehicle/boat operator utilizing GPS Navigation to operate that vehicle/boat in a safe and proper manner. If the operator of a GPS-equipped vehicle/boat does not pay full attention to the details of driving at all times it is possible for an accident or collision to occur causing property damage, bodily injury or even death. The vehicle operator must pay complete attention to the details of operation while the vehicle is running and moving. Specifically while boating, it is imperative that the boat operator pay full attention at all times to the details of driving the boat.

DO NOT RELY ON A GPS UNIT, BOATLANES WAYPOINTS AND/OR BOATLANES TRAILS TO NAVIGATE IN THE DARK OR IN BAD WEATHER!

GPS waypoints and the BOATLANES chip will not give details above or below the water...Boat operator must maintain a visual on all surroundings at all times in order to operate safely.

Although BOATLANES LLC has taken every precaution to provide customers with waypoints that indicate the safest possible boat running lanes on the lakes for which it has been created, it is the sole responsibility of the individual boat operator using the BOATLANES Products to *watch for any hidden obstacles in, under, and around the water--Specifically in the direct path of any of the BOATLANES WAYPOINT AND/OR BOATLANES TRAILS.*

Fog reduces visibility. Operating a boat during foggy conditions is not advised. Visibility is reduced in the dark. Operating a boat in the dark is not advised.

Disclaimer: It is the sole responsibility of the vehicle operator to pay full attention at all times to the details of and for operating that vehicle safely.

BOATLANES LLC, or anyone working for, or associated with BOATLANES LLC is NOT RESPONSIBLE for any damage to any vehicles/boats, personal property, real property, bodily injuries, or deaths occurring in a vehicle/boat equipped with a GPS unit that is utilizing the BOATLANES chip or otherwise.
